ADITI PUSNAKE

Full-Stack Developer | Gen-AI Developer

+91 9226250326 · Yavatmal, MH, India-445306 · aditipusnake15@gmail.com · LinkedIn ↗ · GitHub ↗

SUMMARY

Full-Stack Developer with hands-on experience building end-to-end web applications using the MERN stack (React, Node.js, Express.js, MongoDB) and integrating Generative AI capabilities. Skilled in designing responsive user interfaces, engineering secure RESTful APIs with JWT authentication, and managing unstructured databases. Possesses a strong analytical foundation in JavaScript and a passion for deploying secure, scalable, and production-quality software solutions. Seeking a Software Development Intern / Junior Full-Stack Developer role to drive meaningful technical impact.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), Python
- **Frontend:** HTML, CSS, React, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Databases:** MongoDB, Mongoose, NoSQL
- **Developer Tools:** Git, GitHub, Postman, Vite, npm, Vercel
- **AI & API Integration:** Google Gemini API, Prompt Engineering, Generative AI Integration, Third-Party API Integration

PROJECTS

MockMind – AI Interview Preparation Platform, *React.js, Node.js, Express.js, MongoDB Atlas, Google Gemini API, JWT, bcrypt*

- Developed a full-stack interview preparation platform with secure user authentication and personalized question generation.
- Integrated Google Gemini API to generate role-specific interview questions and provide AI-powered answer evaluation and feedback. JWT authentication and bcrypt password hashing for secure user management.
- Built RESTful APIs using Node.js, Express.js, and MongoDB Atlas to manage interview data with full CRUD operations.
- Deployed frontend and backend separately on Render with production environment configurations.

GitHub ↗ · Live Demo ↗

CollabSphere – AI-Powered Developer Collaboration Platform, *React.js, Node.js, Express.js, MongoDB, Google Gemini API, REST APIs*

- Developed a full-stack developer collaboration platform for managing projects, team activities, documentation, and files.
- Implemented REST APIs and backend authentication to support secure user access and project management.
- Built features for project management, collaborative notes, and file uploads.
- Integrated Google Gemini AI to support AI-powered developer assistance.
- Deployed the frontend and backend using Render.

GitHub ↗ · Live Demo ↗

Collaborative Markdown Notes Saver, *HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB*

- Developed a full-stack web application enabling users to seamlessly create, edit, and permanently store notes using MongoDB.
- Integrated a dedicated Markdown editor library to enable real-time text formatting and enhanced writing capabilities.
- Architected robust RESTful APIs using Node.js and Express.js to orchestrate full CRUD (create, read, update, delete) operations for note persistent storage.
- Designed an intuitive, clean, and user-friendly web interface using HTML5, CSS3, and modern JavaScript.

EXPERIENCE

Student Support – *Eternal University* **March 2026 – September 2026**

- Collaborated with cross-functional student bodies to maintain community engagement and streamline communication channels.

EDUCATION

Bachelor of Computer Applications (BCA) – *Eternal University, Baru Sahib, HP, India* **Expected Graduation 2028**
